Vincent Kurutza

Technology Leader

Seeking a high-impact leadership role where I can leverage two decades of cross-industry experience to drive strategy, planning, and organisational performance.

Experience

2019 – Current
Manager Quality Engineering – *Elsevier*

Lead all aspects of Quality Engineering — resourcing, best practices, and tooling — at a world-leading academic publisher of scientific, technical, and medical content.

- Designed and delivered a Claude AI powered solution that automates repetitive Quality Engineering tasks, driving measurable gains in team efficiency and dramatically accelerating QA test script generation.
- Spearheaded the transition from Waterfall to Agile CI/CD
- Drove the shift from manual to automated testing
- Designed and implemented a streamlined UAT process
- Trusted member of key technology leadership steering committees
- Direct reports: 11 Global
- Tech: Confluence and Jira, Zephyr, Salesforce, Copado Robotic Testing, Postman & Claude AI

2017 - 2019
Head of Quality Assurance – *DigitalGenius*

Combined leadership with hands-on testing at an AI start-up pioneering automated customer support.

- Established QA best practices and standards from the ground up
- Led the company-wide transition from Scrum to Kanban
- Hands-on manual and UX testing
- Direct reports: 2 UK
- Tech: Salesforce, Postman, DG AI Platform

2015 – 2017
QA Senior Manager - *The Inviqa Group*

Senior leadership role managing client relationships and raising quality standards at an award-winning digital product agency.

- Direct reports: 15 Global
- Tech: PHP, Confluence and Jira, Magento, Drupal
